- Enjoy the freedom of generating your own energy

## Sustainable

- Reduce your carbon footprint
- Renewable energy

\*Price includes 30% tax credit; installation, shipping, and taxes not included.

The **LumenCache** platform replaces traditional 110V AC power distribution in buildings with a new standard more appropriate to the low power needs and digital capabilities of electronic devices including LED lights.

Benefits over traditional AC LED lights:

- Inexpensive wiring
- Resilient battery backed operation
- Smart sensors and operation
- Efficient operation
- Reliable, Low-maintenance

**We Proudly Install and Distribute**

Rectify LLC is a family-owned business with offices in Indianapolis and Boonville, Indiana. We strive to promote sustainability, and helping our customers to save money on their energy bills by performing home energy audits, solar installations, radiant barrier and blown-in insulation, and the installation of LumenCache's DC LED lighting and control systems.

Rectify focuses on the energy usage of your home or business. We target the key areas in your building to facilitate the greatest energy reductions. Rectify also specializes in solar installations with a heritage of 500+ completed installs. We offer zero down financing for ANY energy efficiency upgrade when paired with solar. We can Rectify your home and your energy.

Rectify donates to the Sycamore Land Trust and the DNR for reforestation and land preservation projects with each sale of our products and services.
